Australia says 'Thank You'

'I had unhealed wounds when I went to war and Vietnam made it all worse.'

Of all the remarkable healings around Australia during Sandra Sellmer's recent series of seminars, perhaps the most wonderful testimony comes from a Vietnam veteran who was initially unsure about attending the course. Having spent thousands of dollars looking for help in the past, he was understandably doubtful that any change was likely.

'All the psychologists and agencies set up by the government have not brought healing from trauma as God has done through Sandra. She opened up a great understanding between the spiritual and the secular. All the chaplains from all churches who are involved with those who have been at war should be taking hold of this teaching for the healing of vets.'

Throughout Australia, astonishing blessings flowed. We can only say 'thank you' to our Lord that He ministered so powerfully through Sandra in so many locations. She not only caught God's heart for us she also caught our hearts. From every centre where she taught and ministered, we've heard: *We were blessed by Sandra's insights and discernment and ministry. Thank you so very much. Your ministry is Godly, wholesome and awesome.*

CDs from Elijah House USA

Do you know that the Resource Centre has three special teachings from Elijah House USA? Although they are not part of the course teachings, they provide Elijah House keys of knowledge and understanding in areas that affect many of us personally, as well as those whom we love. Many who hear these teachings are impacted by the content. One man we heard of, who listened to *Lost and Found* until well into the night, was so impressed - *This is all about me!!* - that he woke his wife and listened to them again.

Recorded at Elijah House USA seminars in 2008, the titles are:

- 🎧 *Lost & Found – Keys for Healing from Rejection*, by Robert Fetveit (Director of Elijah House USA)
- 🎧 *Three Wolves & Two Towers – Defeating Religious & Political Spirits*, by Robert Fetveit
- 🎧 *It's Not for Nothing – Healing from the Pain of Grief & Loss*, by Sarah Compton (Prayer Minister)

These CDs are available for \$10 each (+ postage) from the Resource Centre, Phone 07 5492 8588, Email info@elijahhouse.com.au.

Babies learn in the womb

A recent article* from the pro-family 'Endeavour Forum' shows research confirms some truths taught at Elijah House Ministries courses:

"German researchers say babies begin to pick up the nuances of their parents' accents while still in the womb. The researchers studied the cries of 60 healthy babies born to families speaking French and German. The French newborns cried with a rising "accent" while the German babies' cries had a falling inflection.

Writing in the journal *Current Biology*, they say the babies are probably trying to form a bond with their mothers by imitating them. The findings suggest that unborn babies are influenced by the sound of the first language that penetrates the womb.

Kathleen Wermke from the University of Wurzburg, who led the research, said, *The dramatic finding of this study is that not only are human neonates capable of producing different cry melodies, but they prefer to produce those melody patterns that are typical for the ambient language they have heard during their foetal life. Newborns are highly motivated to imitate their mother's behaviour in order to attract her and hence to foster bonding...*

The Level B teachings, *Prenatal & Early Childhood Issues Part 1 & 2* address this subject.

Thank you Lord for leading us into truth as we seek to follow you.
